

Economy Rate Calculation:

- Calculate the economy rate for each bowler:

DAX

Copy code

```
EconomyRate = DIVIDE(SUM('Fact Bowling'[runs]), SUM('Fact Bowling'[overs]))
```

Strike Rate Calculation:

- Calculate the strike rate for each batsman:

DAX

Copy code

```
StrikeRate = DIVIDE(SUM('Fact Batting Summary'[runs]), SUM('Fact Batting Summary'[balls])) * 100
```

Total Runs Conceded by Team:

- Calculate the total runs conceded by each team:

DAX

Copy code

```
TotalRunsConceded = SUM('Fact Bowling'[runs])
```

Total Wickets Taken by Bowler:

- Calculate the total wickets taken by each bowler:

DAX

Copy code

```
TotalWickets = SUM('Fact Bowling'[wickets])
```

Match Outcomes:

- Count the number of matches won by each team:

DAX

Copy code

```
MatchesWon = CALCULATE(COUNT('Dim Match Summary'[match_id]), 'Dim Match Summary'[winner] = 'Dim Player'[team])
```
